The Water of Systems Change

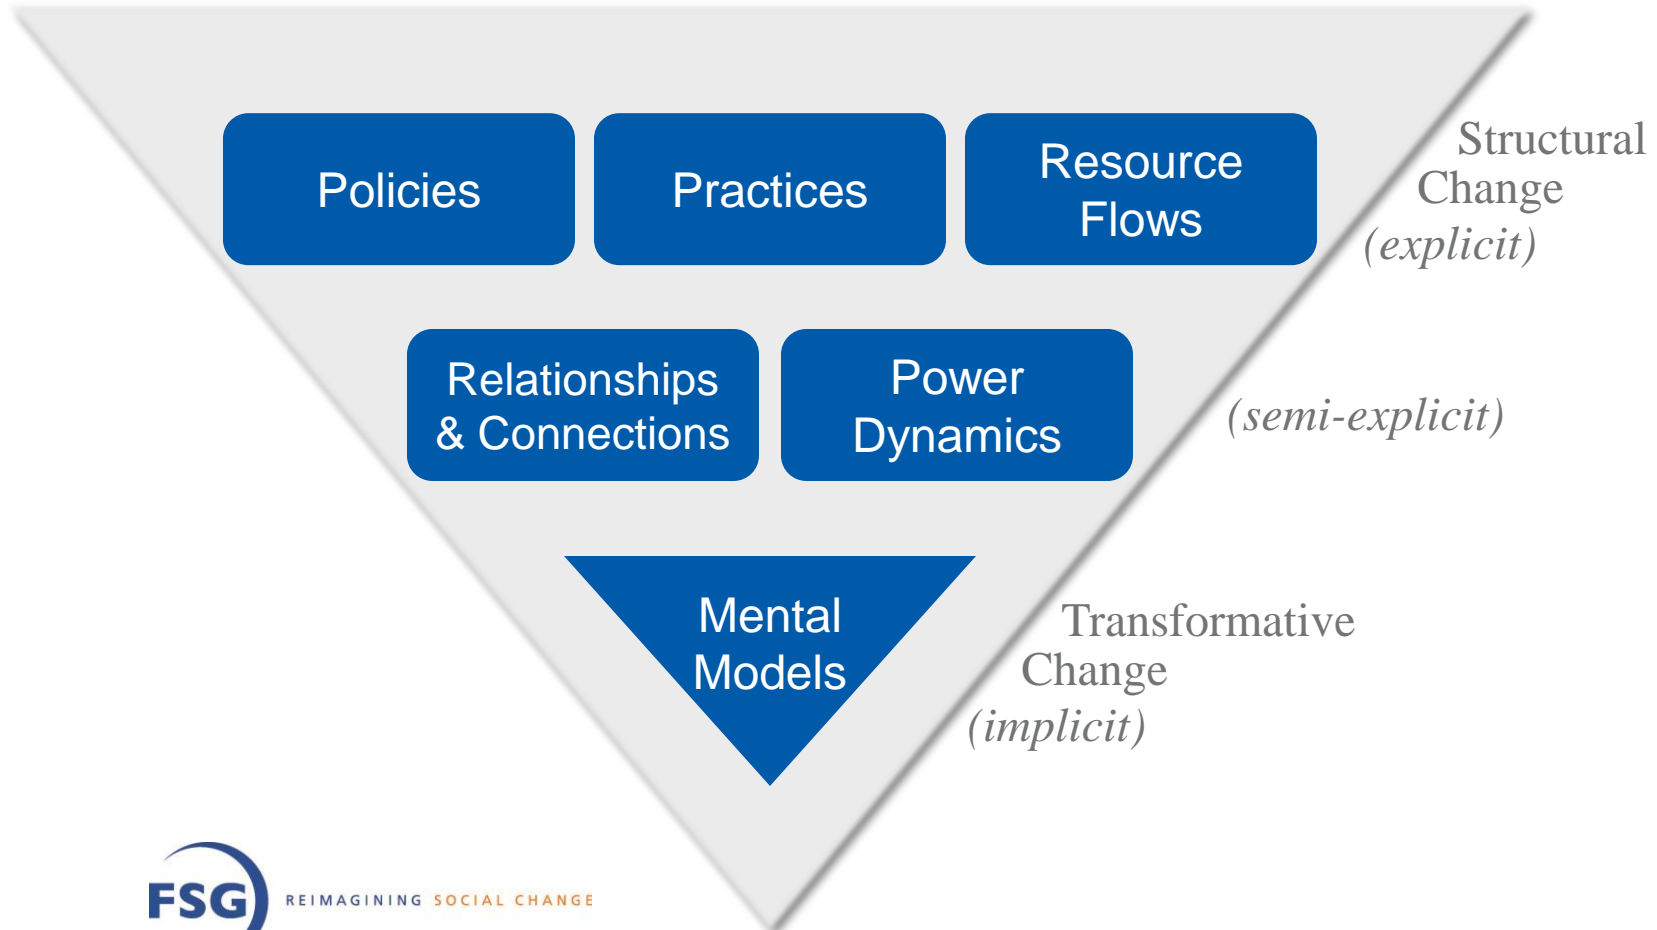

What is systems change?

Systems change is about
**shifting the conditions that are
holding a problem in place**

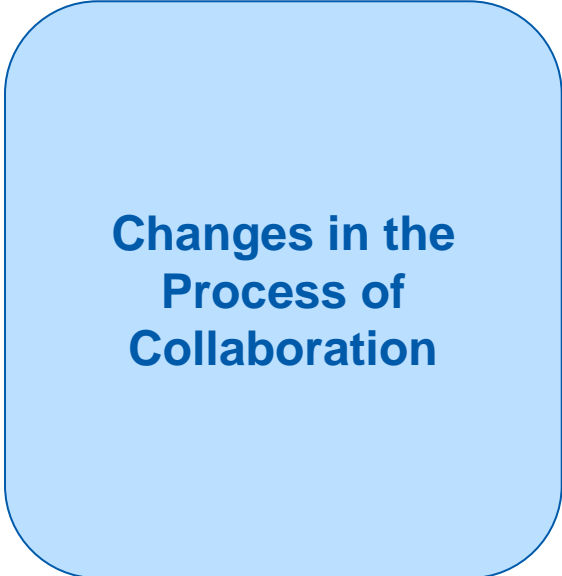

Shifting the conditions that hold the problem in place

Six Conditions of Systems Change

While real life doesn't unfurl in this linear and mechanistic way, we've started to think of systems change as occurring between **process** and **population-level** outcomes

**Short-term
(Years 0-2)**

**Medium-term
(Years 2-5)**

**Long-term
(Years 5+)**

this is about shifting the systems that hold problems in place
